Words of appereciation

Mufti Mohammed Kashif Al Ridawi Al ansari

Ihya Academy, Banglore India

The Prophet Mohammed (peace be upon him and his progeny) is the last messenger of Allah and hence Quran is the last message from Almighty Allah to mankind. Just like the Prophet was sent as a mercy to the whole universe so is the Quran. It is the final source of guidance from Almighty Allah. The Quran says: This is nought else than a reminder unto creation (81:27)

The Quran covers every aspect of human conduct and behaviour and is a manual for everyday life. It not only contains sacred law but social moral and political issues faced by people every day.

The booklet in your hands has picked up 100 small but huge teachings from Quran. I have looked into a few parts of it and found them easy to read and implement in daily life. I have requested the compiler to add the actual verses of the Quran so that the reader can refer back to the original source.

May Allah help us understand Quran and follow its teaching. May Allah rewards the compiler and others who helped shape this book abundantly: Aameen.

The message of the Qur'an

Hundred teachings of Quran' is book compiled by Muhammad Hassaan Raza Rayeeni Sahib which brings to its readers the message of Quran in most sublime way. The compilation of hundreds teachings in a book form will help readers specially youths to understand the message of Quran easily. The beauty of Quranic message is that it simplifies the lives of people and does not make hardships for the mankind. The Quran as taught to us by Prophet of Islam Hazrat Muhammmad (peace and blessings upon him) has details about everything in life from birth to death. It has practical teachings for the common people and administrative rules for the government to follow. It covers all aspects of life.

Quran gives a message of compassion, mercy and brotherhood to humanity. It provides solution to hatred and violence through love and peace. It asks us to respect the rights of person, the rights of women, widow, poor and the needy. It asks us to not treat people differently on the basis of race, religion, caste, color or creed.

It says, if you do not afford the charity, speaking a good word, smile to needy and deserving is also a Charity. To the question, Who is high in the sight of Allah? It answers, 'The person who is a good man in the sight of his women'.

It gives practical examples of administration in the societies through rules and regulations. It teaches us through the examples of earlier generations. It teaches us that Justice is the backbone of any society. It says that Follow justice, witnesses for Allah, even though it is against you or your family and relatives.

It warns us to not disobey the commands of Allah and limitations set by Him. Allah loves the believer more than his parents so faithful are also expected to respect and follow the teachings of Quran in their lives.

The Sublime Qur'an

Fardeen Ahmad Khan Razvi

Allah's name (we) begin with the Most Affectionate the Merciful

It is indeed an immensely prodigious blessing of the Almighty Allah upon mankind that he bestowed us guidance through his Beloved Messenger and Prophet Muhammad (peace and blessings be upon him and his progeny) in the form of the Magnificent Qur'an. The Qur'an is a book of guidance for the whole of human kind. It's clear verses and upright commandments are undoubtedly the shining lanterns which lead a person to the righteous path; The Path of Allah. Adopting its message in life makes a person not only a good human being but also an ideal for the rest of humanity to follow.

For centuries, scholars, theologians and enthusiasts of oriental literature have shown keen interest in this Magnificent Book, they have for centuries pursued its verses, its semantics, its rhetoric and lexicon and have ultimately concluded that it is indeed a Book which can never be replicated by man, as it is verily the word of the Lord.

But much to our dismay, there have also been people who have opposed the truth all their lives and have tried to lead people astray from the Divine Truth. Doing the Devil's dirty work these people have devoted their lives in trying to refute, deny, disprove, debunk and raise doubts upon this Holy Scripture.

Systematically, a new kind of hogwash has been created to make people believe that this Eloquent and Sublime book somehow promotes terrorism and suicide bombings! Alas! The irony here is heart breaking, the book which from tip to toe contains guidance and message of peace is being framed and portrayed as the handbook of "DIY blow yourself to pieces" and "kill them all" …

… If only people would have opened the Qur'an for once and would have read the very first verse they would find "Allah's name (we) begin with the Most Affectionate the Merciful" that this book is being started with the name of the Lord, and how is this Lord? Is he an oppressor or a tyrant? Nay! It says the MOST AFFECTIONATE and THE MERCIFUL! The Lord of Qur'an is Affectionate and Merciful, how can you associate his Word as being something which instills terrorism in people?

In another place it is mentioned "the ones who Control their Anger and Forgive people. And Allah loves Good-doing people" [3:134] … In another verse it says "The Servants of -The All Merciful- are those who walk the Earth humbly and when the ignorant people speak to them, they reply with Peace". [25:63] … Somewhere else it is mentioned "… Muhammad is the Messenger of Allah and those with him … are 'Compassionate' among themselves" [48:29] … Also, there is "Indeed, the Mercy of Allah is close to the good-doing people" [7:56] …

I can go on like this and mention countless verses from the Sublime Qur'an which have the sacred aroma of Mercy and are fragrant with Divine Love.

Even the people who followed the Qur'an and the Prophet of Mercy (peace and blessings be upon him and his progeny) became the most renowned peace-makers and preachers of Love to the world, to name a few, Al-Ghazali, Al-Kharqani, Ibn Arabi, Mevlana Rumi and Khusro etc. all of these poets of Love were inspired from the Merciful Qur'an itself.

It is a thing of immense glee for me that my dear friend, the very talented and diligent, Hz. Maulana Hassan Raza Sahib Rayeeni has compiled this booklet which contains a hundred teachings from the Qur'an, this will indeed serve as a splendid counter-narrative for those propagandas which try to label this Peaceful book as pro-terrorism, and also carry on the Prophetic Mission of preaching the Qur'anic Message to the masses.

I pray to Allah The Exalted to Accept this sincere effort and to make it beneficial for the common folks and grant it welcoming and appreciation in the learned circle. Ameen O Lord of the Worlds accept it through the Waseela of the One whom you sent as a mercy unto the worlds (upon him and his progeny be peace and blessings).

TEACHINGS

OF

QUR’AN

Compiled by:

MUHAMMAD HASSAAN RAZA RAYEENI

Preface:

The Qur'an is the exalted book in which there is no place for doubt. It was revealed to the Holy Prophet Muhammad ﷺ for the guidance of all humanity. Many non-Muslim intellectuals also accept its legitimacy.

We are presenting here the statements of some intellectuals which they have stated regarding the Qur'an

Albert Einstein Says:

Qur’ān is not a book of algebra or geometry but is a collection of rules which guides human beings to the right way, the way which the greatest philosophers are unable to decline. (1)

Leo Tolstoy says:

Quran contains clear realties and tenets and human beings can utilize it generally.(2)

Dr. Marks Says:

Quran contains all divine messages, which exist in all sacred books for all nations. There are verses in Quran that relate to learning science and thinking and discussing and training and I confess that this firm book has corrected many of the man's mistakes.(3)

Of course, the quotations mentioned above are very little, i would prefer no to refer to all of them.

In this booklet, I have compiled some of the teachings of the Qur'an, of course, it does not encompass all the teachings because to compile such a text would be a cumbersome task. Hence, I have compiled this short booklet to the best of my ability And named it booklet "**100 teachings of Qur'an**"

May Allah accept it and make it beneficial for the people.
